## PROFESSIONAL SUMMARY

Full-Stack Developer and versatile professional with 5+ years spanning web development, project coordination, and operations. Skilled in building responsive and scalable applications using React, Node.js, Next.js, and modern front-end frameworks. Proven ability to lead cross-functional teams, mentor junior developers, and streamline processes for efficiency and performance.

---

## WORK EXPERIENCE

### Web Developer (Freelance)

*Remote | Jan 2023 – Present*

- Built and deployed scalable web applications using **Reactjs**, **Nodejs**, **Nextjs**, **Typescript**, and Tailwind CSS.
- Worked on multiple short-term contracts via platforms like Upwork and direct clients.
- Developed and maintained client portfolios and integrated CMS tools (WordPress, Sanity, Strapi).
- Currently lead developer for Onereference project.
- Portfolio: [github.com/perwriter](https://github.com/perwriter)

### Project Manager – Video Editing Team

*Contract | Jan 2024 – Apr 2024*

- Recruited, trained, and supervised a remote team of video editors.
- Tracked project timelines, task completion, and facilitated timely payments using Trello and Google Workspace.

### Mentor – ALX Software Engineering Program

*Remote | Aug 2024 – Sep 2024*

- Mentored two post-graduation teams working on React.js projects.
- Guided them on frontend architecture, state management with hooks, Git collaboration, and best practices in component-based design.
- Provided weekly code reviews and support through project milestones.

### Virtual Assistant / General Manager (Freelance)

*Remote | Jan 2019 – Jan 2024*

- Supported client operations in admin support, lead generation, email handling, transcription, and sales coordination.
  - Supervised over 5 freelance writers ensuring delivery of plagiarism-free, high-quality content.
-
